

MUMME TOOLS

Made Tough Since 1936

NORMALISED BALL PEIN HAMMERS

**SOFT
FACE**

**PINNED FG
HANDLE**

FEATURES

- Useful for engineers and used in metal work for striking punches and chisels
- Also used for riveting work with hammer ball end
- Normalised hammer head features a softer face (below 20HRC) that will mushroom – ideal for applications where the risk of chipping needs to be minimised
- Hammer heads are pinned through the steel core of the fibreglass handle for added safety
- Includes tether hole for working at heights
